Development History

1993

- Established INTCO Medical Industries Inc

1998

- Established Shanghai Marketing Center

2003

- Established ECG and Hot&Cold therapy manufacturing base

2004

- Established wheelchair manufacturing base in Zhenjiang

2009

- Established disposable gloves manufacturing base in Zibo

2010

- Established disposable gloves manufacturing base in Qingzhou

2013

- Established Canada Marketing Center

2016

- Established Germany Marketing Center

2017

- Listed on Shenzhen Stock Exchange
- Established disposable gloves manufacturing base in Huaibei

2019

- High-end R&D Manufacturing Base for Physiotherapy Care and Medical Consumables in Vietnam

2020

- Established disposable gloves manufacturing base in Jiangxi
- Established disposable gloves manufacturing base in Anqing
- Established CHP project base in Anhui

2021

- Established Japanese Marketing Center

2022

- Established INTCO Medical Intelligent Science & Technology Park
- Established Malaysia Marketing Center

Intelligent Manufacturing Workshop

Tube-making workshop

- 65 intelligent tube making machines
- Various tube making machines/3-In-1 robotic tube making machine/Automatic laser cutting machine
- 20% increase in capacity and 62% saving in labor costs

Intelligent laser cutting

- Each shift has a production capacity of 1500-2000 pipes, and is expected to produce approximately 150,000 finished pipes per month.

Intelligent Manufacturing Workshop

Welding workshop

- 65 robotic welding machines
- 34 argon arc welding operating rooms
- Over 30% of welders with DVS international welding certificate

New powder coating line

- Investment up to tens of millions
- Automatic powder coating system of Swiss Gema brand

Intelligent Manufacturing Workshop

Injection workshop

- 37 automatic injection machines
- Automated raw material feeding systems
- Self-production of plastic parts (MAG wheels etc.)

PU lines

- 24-station PU tyre high-pressure foaming production line
- Equipped with Yaskawa 6-axis manipulator for fully automatic perfusion

Intelligent Manufacturing Workshop

Product assembly lines

- 9 assembly lines
- 2 high-end automated assembly lines
- Daily output up to 3000+ units

Intelligent warehouse

- Covers an area of 8,490 m²
- Accommodates approximately 60,000 wheelchairs at a time
- Intelligent warehouse management pattern, digital storage record system

Forerunner in Green Ecology

Green serves as the defining backdrop for high-quality development. In recent years, INTCO Medical has actively embraced China's "dual carbon" strategy, adhering to the principles of environmental protection, health, safety, energy efficiency, and lean development. We have consistently advanced innovation and application in green technologies, enhanced its climate governance capabilities, and committed to sustainable and low-carbon operations. Through these efforts, we continue to make meaningful contributions to environmental protection and sustainable development.

Addressing Climate Change

- Implement the carbon neutrality action plan
- Adoption and utilization of renewable energy
- R&D of energy-efficient and emission-reduction technologies
- Implementation of innovative carbon reduction programs

Environmental Compliance Management

- Environmental management system
- Energy utilization
- Water resources utilization
- Circular economy
- Emissions and Waste Management

Practice Green Operation

- Paperless office
- Green travel
- Smart Restaurant

Developing Green Logistics

- Adhering to vehicle emission standards
- Inland waterway transport & Sea-rail transport
- Shipping from nearby ports
- Regional distribution system

4 Initiatives for Environmental Management and Governance

Energy Utilization

- Efficient Use of Energy
- Application of Alternative Energy Sources
- (Photovoltaic and wind energy)
- Updating of Production Processes and Equipment Replacement
- Intelligent Energy Management

Water Resource Utilization

- Improving Water Efficiency
- Diversifying Water Resources
- Wastewater Management

Circular economy

- Explore innovative solutions for resource recycling in packaging materials
- increasing recycling rates of packaging materials
- Reduce reliance on disposable materials
- Cooperate with FSC suppliers

Emissions and Waste Management

- Comprehensive life-cycle waste management
- General solid waste management
- Hazardous waste management
- Waste gas is discharged up to standard

“Innovation+Technology+Quality+Service” Powering Synergy Together

01 Promote Innovation-driven

- Innovating Product Systems
- Strengthening Communication
- Protecting Intellectual Property

04 Prioritize customer service

- Customer service management
- Customer complaint management
- Customer satisfaction management

02 Leading in Technology

- Promote Lean Production
- Deepen intelligent transformation
- Carry out school-enterprise cooperation

03 Strictly ensure product quality

- Quality Management System
- Strict Control of Product Quality
- Intelligent Quality Management
- Quality Culture Development
- Product Safety Management

Donation & Social Responsibility

Accumulated free donations to society
More than US\$10.5 Million

Adhering to the corporate values of "Love, Kindness, and Truth", actively fulfil corporate social responsibilities.

Public welfare behaviors are recognized by society and INTCO has become an excellent corporate citizen.

Public Welfare

Safeguarding Employee Growth and Development in Four Dimensions

01

Employee Rights Protection

- Respecting and protecting human rights
- Compensation and welfare guarantees

02

Facilitating Employee Development

- Smoothing career development channels
- Employee training and development

03

Prioritizing Employee Care and Welfare

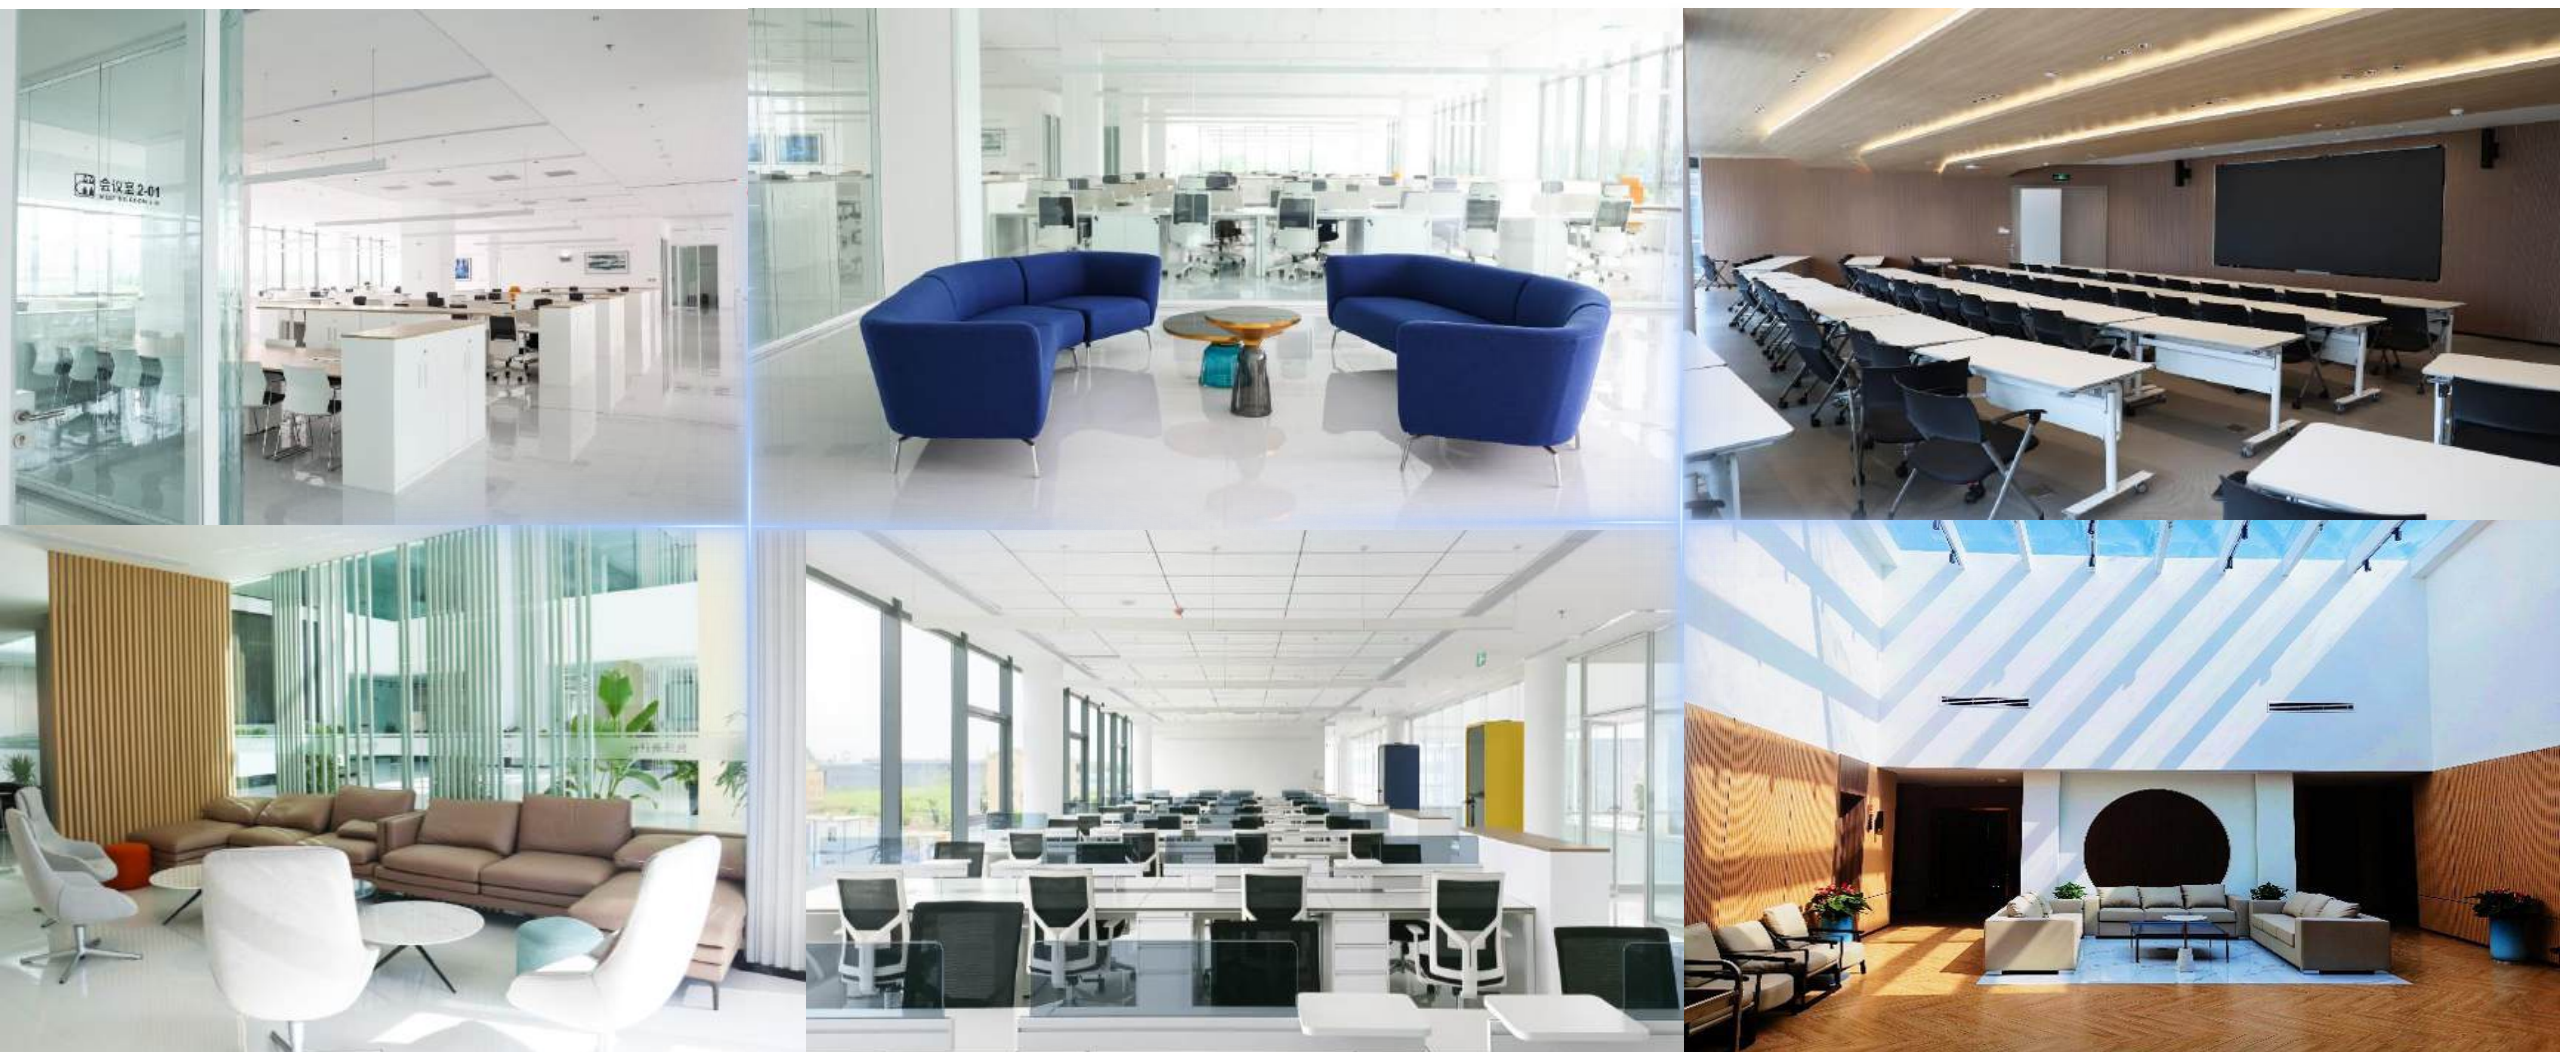

- Respecting and supporting employees
- Enriching employees' lives

04

Occupational Health and Safety

- Safety management system
- Security risk identification and response
- Protecting employee health
- Digital safety management

5

Champion of Steady Development

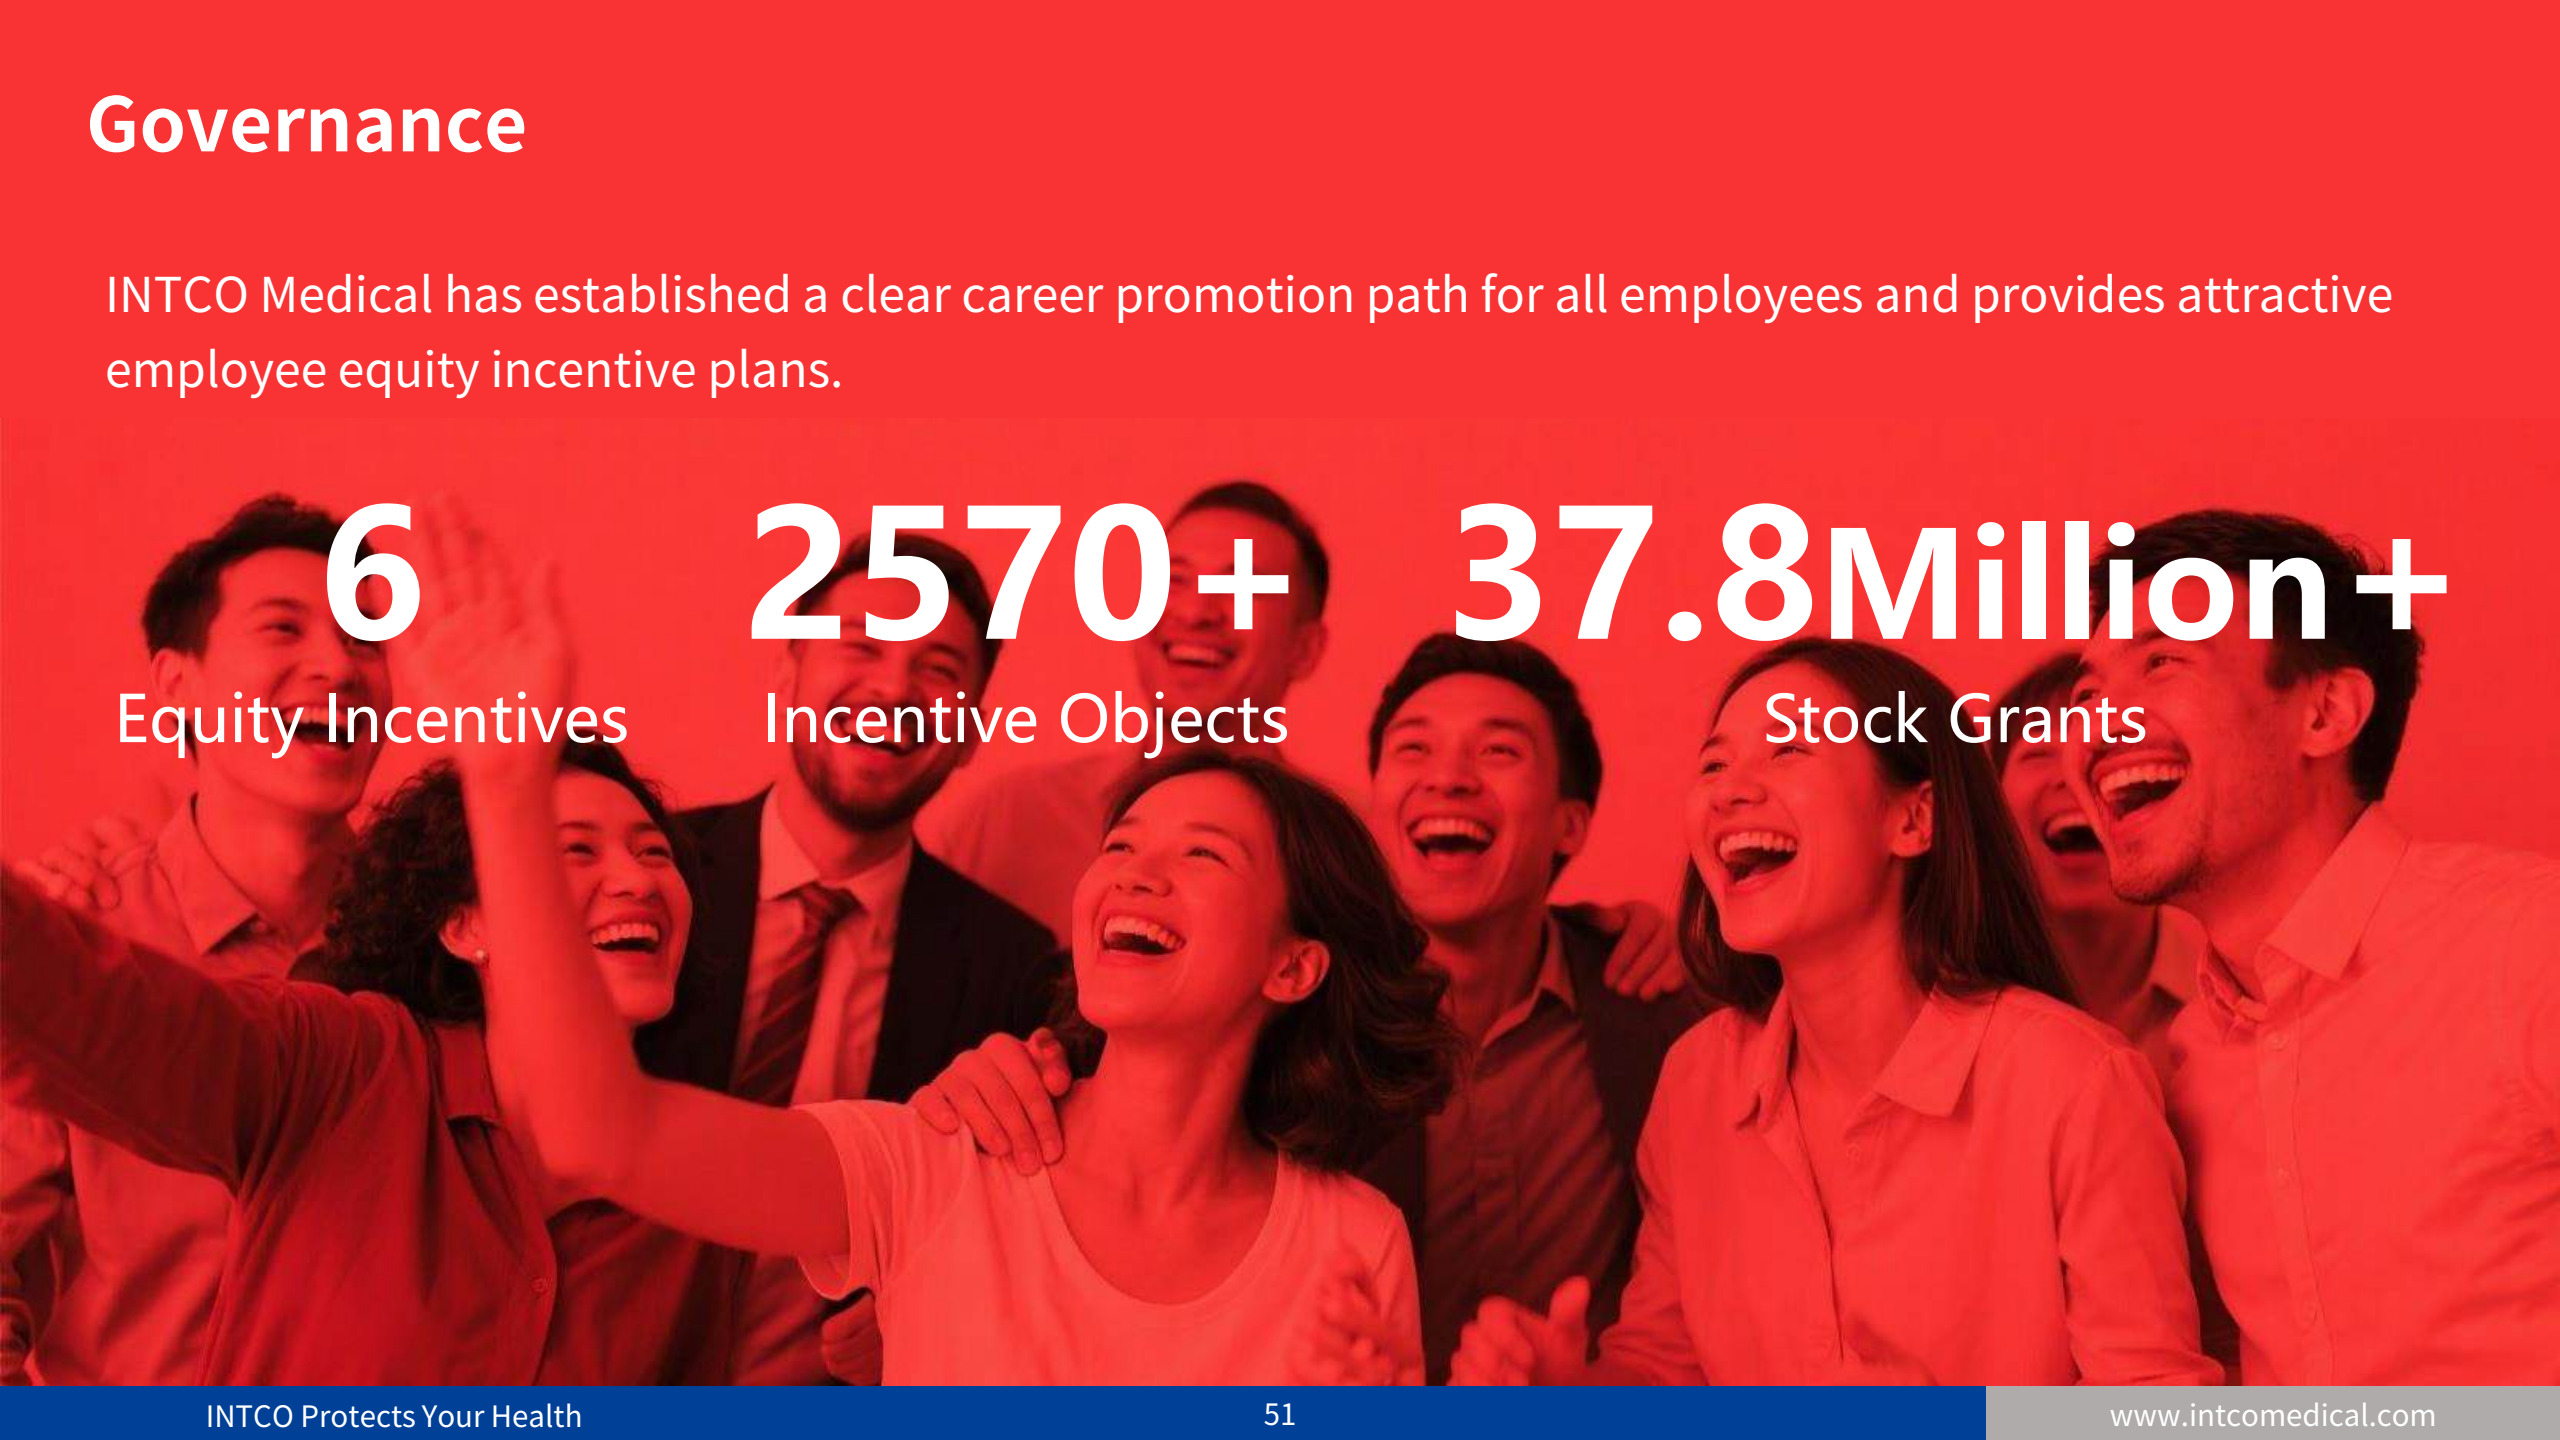

INTCO Medical continues to enhance its corporate governance by standardizing its “Three Committees and One Senior Management” governance structure composed of the shareholders’ meeting, Board of Directors, Board of Supervisors, and senior management, ensuring the effective protection of shareholders’ legitimate rights and interests. We place strong emphasis on anti-bribery and anti-corruption measures, building a robust defense against corruption risks. Additionally, we have established a comprehensive risk management system, strengthened information security protocols, and laid a solid foundation for stable and sustainable operations.

Governance

INTCO Medical has established a clear career promotion path for all employees and provides attractive employee equity incentive plans.
